Strided multiplication: fixed operation count
float, scalar
float, native auto
double, scalar
double, native auto
N = 1,024 multiplications
N = 16,384 multiplications
N = 262,144 multiplications
N = 4,194,304 multiplications
Useful bandwidth (GiB/s)
Stride (elements)
1
2
4
8
Median of 7 trials; bars show min–max, not confidence intervals. Useful bytes = 3 × N × sizeof(T).
